About CBM International

CBM is an international Christian development organization, committed to improving the quality of life of persons with disabilities in the poorest communities of the world. Based on our Christian values and more than 100 years of professional expertise, we address poverty as a cause and a consequence of disability. We work in partnership with state and non-state actors to create an inclusive society for all. Our work is not just about numbers; it's about making a real difference in the lives of those in need. Through our localization agenda, we place a strong emphasis on local capacity development in the regions where we work. This approach not only enhances service delivery in crucial areas such as healthcare, education, rehabilitation, and livelihood development but also fosters the organisational development of our partner organisations, ensuring a sustainable impact.
