REQUEST FOR PROPOSALS FOR THE DESIGN AND DEVELOPMENT OF A VIRTUAL
MUSEUM PLATFORM

The Arts for Memorialization and Healing project, implemented by the FATI ABUBAKAR ARTS FOUNDATION (FAAF), is designed to promote healing, truth-telling, and advocacy through creative expression in Borno State.

In its legacy phase, the project expands into four artistic strands: Photography, Creative Writing, Painting, and Poetry, enabling survivors, youth, and marginalized voices to document their lived experiences and contribute to transitional justice and community healing.
