

## TECHNICAL SUPPORT TO THE AIDS, TUBERCULOSIS (TB), AND MALARIA TECHNICAL WORKING GROUP FOR THE FACILITATION OF THE ATM GENERATIVE WORKSHOP

Nigeria continues to bear one of the highest global burdens of AIDS, Tuberculosis (TB), and Malaria (ATM). Responses to these diseases have historically been financed managed through vertical, fragmented approaches with limited synergy in planning, implementation, and financing. In response to shifting global financing landscapes particularly the transition from direct U.S. Government (USG) support to the Global Fund's GC7 grant there is a renewed national imperative to pursue integrated, sustainable, and domestically driven ATM programming.
