

REQUEST FOR QUOTATION FOR DEVELOPMENT OF THE 2025 STATE OF HEALTH REPORT

1. BACKGROUND

The 2014 National Health Act requires our client to present an annual State of Health Report that shows the performance of the national health system on overall health system goals, such as population health, health system responsiveness, financial risk protection, and efficiency. Furthermore, the 2016 National Health Policy requires our client to provide evidence-based achievements in the health sector through routine research and data analysis. Our clients seek to engage a qualified and experienced firm to provide technical assistance for the development of the 2025 State of Health Report.
