1. Introduction

The GEORGETOWN GLOBAL HEALTH NIGERIA (GGHN) is a Non-profit, Non-Governmental Organization that promotes best practices in health care delivery and research using local and internationally adapted models to strengthen health systems.

We are seeking proposals from qualified consultancy firms to implement an HIV Service Delivery Optimization project across Health Facilities across Kano, Jigawa, and Bauchi in Nigeria. This initiative aligns with the Nigerian Health Sector Renewal Investment Programme (NHSRIP) and aims to enhance data-driven decision-making for improved patient survival and epidemic control.

The project will focus on assessing facility functionality, developing a centralized database, and deploying real-time monitoring tools to strengthen HIV service delivery in Kano, Jigawa, and Bauchi states.
