

MANAGEMENT SCIENCE FOR HEALTH (MSH)
STRONGER HEALTH SYSTEMS. GREATER HEALTH IMPACT
REQUEST FOR EXPRESSION OF INTEREST
REF. NUMBER: REOI/MSH/FF 2024-01
REOI FLEMING FUND ENERGY REPAIRS, DE-INSTALLATIONS AND RE-INSTALLATION

1. PROJECT OVERVIEW

MSH is implementing the Fleming Fund Phase II Country Grant (FFCG II) to respond to the threat of Antimicrobial Resistance (AMR) in Nigeria with funding from the UK's Government Foreign Commonwealth Development Office (FCDO) from March 26, 2024 to December 31, 2025. The project primarily supports the Government of Nigeria using a coordinated 'One Health' approach across the human-animal-environment interface, in collaboration with the Nigeria Centre for Disease Control and Prevention (NCDC), Federal Ministry of Agriculture and Food Security (FMAFS), Federal Ministry of Environment, and Fleming Fund Regional Grantees, Strategic Alignment Grantees and Fellowships. The Projects is focused on four key areas; 1) Production of quality AMR/U/C and burden data; 2) quality analysis of data; 3) sharing analysis of data with decision makers and 4) promoting sustainable investment to counter AMR, which are aligned to the MSH Global Health Security Agenda (GHSA) and the Nigeria National Action Plan for AMR.
