## 1. INTRODUCTION

The National Automotive Design and Development Council (NADDC of the Council)) was established with a primary objectives to promote local capacity building in the automatic sector, encourage investments, and drive technological advancements in the country's automotive industry. In line with the agency's drive to revitalize and expand the automotive sector in Nigeria, the council has developed frameworks/initiatives to attract investments, encourage local manufacturing and assembly, and promote technological advancement within the automotive industry. Pursuant to the foregoing, the NADDC has developed Mechatronics Training Centers across various locations in Nigeria, and is desirous of inviting interested firms or consortiums to participate in the qualification process to become Transaction Advisers for the project.
