

FEDERAL REPUBLIC OF NIGERIA
NIGERIA DIGITAL IDENTIFICATION FOR DEVELOPMENT PROJECT
REQUEST FOR EXPRESSION OF INTEREST (REOI) ENGAGEMENT OF CONSULTANT TO
ENHANCE NIMS SECURITY AND RESILIENCE

1.0 Background

The Nigeria Digital Identity for Development (ID4D) Project, initiated by the Nigerian Government and co-financed by the World Bank, the French Development Agency (AFD), and the European Investment Bank (EIB), aims to significantly increase the number of citizens with a national ID number by establishing a comprehensive and inclusive foundational ID system. This initiative is designed to enhance access to essential services for the population. To achieve its objectives, the project focuses on improving digital enrolment infrastructure and expanding enrolment mechanisms.
