

NESCO

NIGERIAN ELECTRICITY SUPPLY CORPORATION (NIGERIA) LIMITED

REQUEST FOR PROPOSAL

PROJECT TITLE: INSTALLATION OF STARLINK FOR NIGERIAN ELECTRICITY SUPPLY CORPORATION (NESCO) NIGERIA LIMITED,  
BUKURU, JOS SOUTH, PLATEAU STATE NIGERIA

INTRODUCTION

NESCO (NIGERIA) LIMITED currently has communications issues at most of her power stations which has greatly affected operations and monitoring within its franchise area due to weak/absence of mobile network coverage at these remote locations viz: Kurra falls, Ankwil 1, Ankwil 2, Jekko 1, Jekko 2, Kwall, Bukuru, Keffi Abu and Barkin Ladi. Additionally, internet connection in these locations will aid monitoring as real-time monitoring on surveillance cameras, remote transmission of machine parameters directly from the machines using suitable devices, remote shut-down/start-up of machines and SCADA implementation at these stations.
