

URGENT REQUEST FOR QUOTATIONS RHHF/UNFPA/RFQ/Q2/2025/001 1.

ABOUT RHHF

ROYAL HERITAGE HEALTH FOUNDATION (RHHF), a non-governmental, not-for-profit organization and implementing partner of UNFPA, is committed to advancing health, dignity, and equality for vulnerable populations in Nigeria. In continuation of its mandate, RHHF is to implement an intervention in Mokwa, Niger State, to address the sexual and reproductive health (SRH) and gender-based violence (GBV) needs of displaced and underserved women and girls. The project will involve the local production and distribution of 3,000 culturally appropriate female dignity kits. These kits will include essential hygiene materials and Information, Education, and Communication (IEC) materials on hygiene practices and GBV prevention, with guidance on how and where to access response services, all translated into local languages. The kits are not only tools for maintaining hygiene but also critical entry points for creating awareness on GBV and enhancing psychosocial well-being. To ensure effective delivery, the intervention includes truck and bus hire for distribution, two rented storage facilities (for consumables and finished kits), and solar lights, fans, canopies, and chairs to support the mobile health facility operations for one month. Additionally, drugs and medical consumables will be procured to support health outreach during the activity.
