

SEPLAT ENERGY PLC

(ON BEHALF OF THE NEPL/SEPLAT JOINT VENTURE)

TENDER TITLE: PROVISION OF STATUTORY INSPECTION OF PRESSURE VESSELS & RELIEF VALVES FOR NEPL/SEPLAT JV

WESTERN ASSET OPERATIONS

NIPEX NUMBER: SEPLAT. 00000119

1.0 INTRODUCTION:

Hydrostatic testing is a process that ensures the safety and structural integrity of certain pressure vessels such as storage tanks, separators, surge vessels, scrubbers' etcetera. It is an industrial pressure testing technique that identify leakages in vessels by pressure, thereby examining their strengths.

This procedure provides guidance on the hydrostatic pressure testing requirements, including factors that should be considered during the test
