

CALL FOR CONSULTANCY SERVICES
DEVELOPMENT OF A WATER QUALITY MONITORING AND SURVEILLANCE
FRAMEWORK - LAGOS STATE
CHC YEAR 3 STRENGTHENING WATER AND SANITATION DELIVERY PROJECT

WATERAID NIGERIA invites qualified consultants to submit proposals for the development of a **Water Quality Monitoring and Surveillance Framework for Lagos State**, to be led by the Lagos State Water Regulatory Commission (LASWARCO).

Lagos State faces significant water quality challenges due to rapid urbanization, environmental pressures, and fragmented institutional roles. Although relevant agencies exist, the State currently lacks a comprehensive framework to guide coordinated monitoring and surveillance.
